Additional Requests \_\_\_\_\_

Fees (each unit): D Series Wrist Unit \$60.00 Transmitter \$55.00 Spyder, Stinger, Mosquito \$60.00 D Series Battery and new Band \$80.00

### Initial the following to Authorize Service/Repairs:

\_\_\_\_ My computer is \_\_\_\_ OR Is Not \_\_\_\_ currently working properly? Please check one that applies

\_\_\_\_ I agree to activate my computer following this battery change and test at approximately 24 hours and 48 hours following the test to insure proper function and activation

\_\_\_\_ I understand that even during storage a "functional" battery should always be kept in my dive computer to prevent damage to the electronics

\_\_\_\_ I understand that sometimes electronics fail or stop working properly especially while under pressure, while the staff at A-1 Scuba & Travel Aquatics has done everything to ensure the best possible performance to my equipment they are not responsible for failure or faulty equipment during or after repair/servicing or testing

\_\_\_\_ I understand that if the post battery in water function and depth test must be waived due to the lack of time between the test and my flight/departure due to the computers 24 hour no fly decompression mode. I understand that by waiving this test an important portion of the proper and ideal testing will not be able to be preformed.

\_\_\_\_ Following the service and test I agree that my computer is working and has the proper settings in the modes

\_\_\_\_ I wish to be contacted by A-1 before my equipment is shipped back to me

By Signing below, I agree and understand the above information and authorize A-1 Scuba & Travel Aquatics Center to perform the necessary service/repairs to my scuba devise, I understand that shipping fees are not included in the Service Fees. I also authorize my credit card to be charged for service/repairs, requested additional services/products and for any related shipping charges. Note: International shipping not available.
